eMobility Lightning &
Surge Protection Solutions

CHARGING PROTECTION

Raycap

Residential and Commercial eMobility Power Protection

AC Protection at Home

Your home and charging station must be protected by AC protection such as the Strikesorb, ProTec T1, ProTec ZP or ProTec T2.

Monitoring Solutions

Raycap's solutions ProSEC II, ProSLS or ProAlarm alert you if your charging station should become vulnerable to electrical surges.
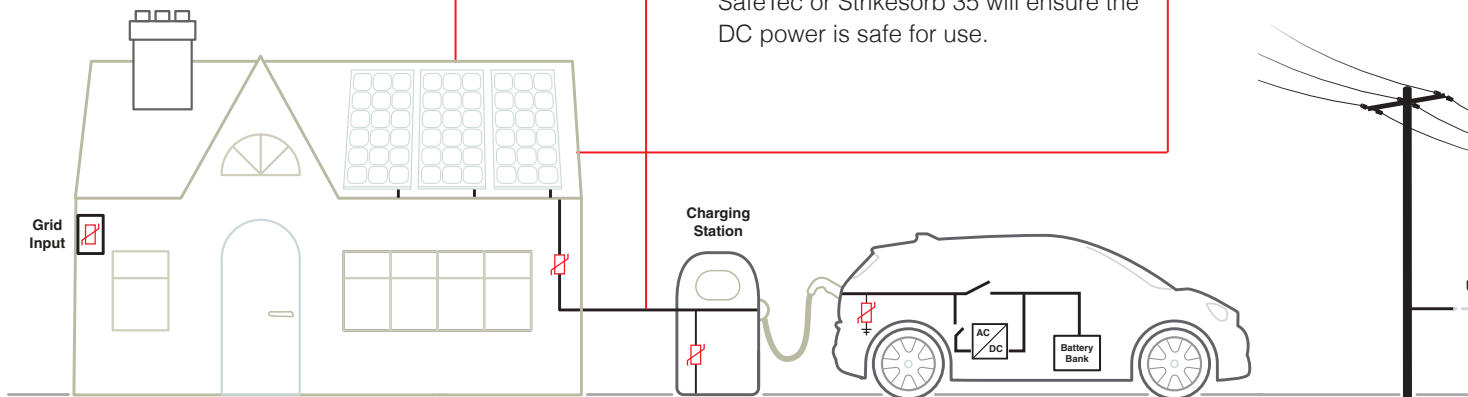

Data & Signal Network Protection

Protect your data and other critical systems at home with RayDat signal protection products such as RayDat NET 6 POE, RayDat SRH or RayDat SLH.

DC Protection

DC protection such as ProBloc, ProTec, SafeTec or Strikesorb 35 will ensure the DC power is safe for use.
