DATA SHEET

Lightning protection isolated HVI Conductor GROMTOR

Product code:

590019

Description:	Size [mm]	Material	Code
A-35	B-23	Cu	590019

In accordance to standard: IEC 62561-8 2018 part 8: Requirements about components of isolated lightning protection system.

Used for providing isolation space between conductor and electrical devices.

Isolated conductor ensures isolation space for the length of 750 mm according to IEC 62305.

No side discharges, doesn't contain halogens.

5 years warranty.
